

## “KILIMO KWANZA”

**Dear Delegates**

Welcome to Dar es Salaam and to Kunduchi Beach Hotel & Resorts  
Warm welcome to “Kilimo Kwanza”.

### **WHY KILIMO KWANZA?**

1. In our opinion agriculture needs to be seen as more than just the means of feeding an ever growing population. Agriculture is about how we sustain land and water resources and provide the infrastructure that sustains millions of Tanzanians who live and work in agricultural dependent communities across the country. Investments in agriculture are essential if we are to achieve meaningful growth and sustain past macro-economic gains.
2. The two day meeting will be attended by about 380 delegates made up of 40 Members of TNBC, 125 Representatives from Agriculture Sector, 63 Representatives of Regional Business Councils, 35 Government Officials, 120 Invitees representing Local Private Companies, selected MDAs and Development Partners.
3. The first day will be the **Special TNBC meeting** to be guided by the “**Kilimo Kwanza**” presentation of the TNBC Agriculture Working Group. The presentation will provide comprehensive review of the deep rooted agricultural sector reform shortfalls and propose ten pillars for “**Kilimo Kwanza**” to be a reality. The ten pillars are actions for quick wins which the Government will be expected to consider and possibly integrate into policy reforms and the forthcoming FY 2009/10 Budget. Private sector is expected to exploit opportunities for implementation.
4. The second day will be continuation of discussions based on the Kilimo Kwanza Pillars and Matrix; and will forge commitments and resolutions in the form of the “**Kilimo Kwanza Green Book**” that will form basis for serious implementation and follow-up.
5. Through “**Kilimo Kwanza**” participating agencies, authorities, companies, corporations, institutions and Regions will have an opportunity to show-case their agri-business opportunities to potential investors, business support agencies and financial institutions. “**Kilimo Kwanza**” follow-up events at regional and district level will start from 2009 nane nane event.

### **Outcome:**

6. “**Kilimo Kwanza**” is expected to be TNBC’s most actionable meeting to-date convinced that the issue of Tanzania agricultural green revolution will impact and

mold our country and lives for years to come. Thus, TNBC is taking the forefront of the evolving agricultural revolution and will serve as a catalyst for innovation and positive changes in agri-business.

7. TNBC expects participants to leave the “**Kilimo Kwanza**” forum with plans and commitments in place to create strategic alliances for better food supply, irrigation infrastructure, livestock and fisheries, sustainable practices for future growth and a new model for consumer requirements.
8. Apart from providing valuable inputs to the FY 2009/10 Budget, the main dividends from the “**Kilimo Kwanza**” dialogue will include proposed Dar Es Salaam resolution in form of “**Kilimo Kwanza Green Book**” aimed at forging of common approach and commitment for implementation of major agricultural oriented reforms guided by proposals from TNBC Agriculture Working Group<sup>1</sup> some of which are as follows:
  - Political commitment to “**Kilimo Kwanza**”.
  - Development of financial instruments for raising capital locally for investments into agriculture and agri-business sector
  - Participation in the establishment of Tanzania Agricultural Development Bank and Agricultural Development Fund to offer access to long term finance to small, medium and commercial farmers and agri-businesses at affordable cost
  - Commitment on practical ways to exploit the emerging food and food crops opportunities for transforming Tanzania’s agriculture to a modern commercial sector by application of modern technology, value chain, diversification to new food crops, investing in high yield seeds, fertilizers, herbicides, commercial farming, contract farming, value addition, backward integration and private sector investing in irrigation infrastructure with the government.
  - Fiscal and non-fiscal incentives for the transformation of agriculture. The proposals may be reflected in budget proposals.
  - Propose green revolution based on paradigm shift from traditional cash crop farming to cultivation of what we consume and consuming what we produce thus reduce dependence on vulnerable commodities and ensure food security while enjoying lucrative regional export markets.
  - Revolutionizing research centers, extension services, financial services such as insurance, marketing etc.
  - Possibility of creating an institutional framework merging agriculture with irrigation, livestock, forestry and marketing to create synergy,
  - Obtain private sector commitment to invest heavily in commercial agriculture and offer areas for investment under “land bank” and Special Economic Development Zone concepts.
  - Tasking institutions and corporations to embark on industrialization anchored on agriculture involving production of agricultural tools, farm implements, tractor assembly, fertilizers, chemicals, agro-processing industries for value addition.

---

<sup>1</sup> TNBC Working Groups include Empowerment, Agriculture, Finance, Lands, Tourism and Image, Manufacturing Agribusiness and Export Development, Human Capital Development and Infrastructure Development.

- Explore agricultural export opportunities given the resource base and geographical advantage of Tanzania in the region with ideas ranging from commitment to implement corridor projects, clusters, local assembly for re-export to neighboring countries especially under Agrarian EPZs.
  - Obtain private sector commitment to invest in agro-manufacturing and value addition
  - Delve on agricultural and pastoral land issues particularly the framework for accessing agricultural land through TIC land bank and special economic development zones along with encouraging participation in agricultural real estate, mortgage financing, leasing etc.
  - Affirmative measures to make agricultural land a tool for economic empowerment of Tanzanians in rural areas.
  - Commitment to embark on initiatives to fast track investments in agricultural infrastructure in order to reduce cost of doing business, post harvest losses and cognizant of the geographical potential of Tanzania in the region.
  - Encourage participation in corridor projects through PPPs especially in rural roads, ports and airports modernization, irrigation schemes and rural electrification.
  - While addressing the adverse impact of the world economic crisis, discussions will focus on means to attract investments to the agricultural and agri-business sector of the Tanzania economy as a long term alternative and approach to dealing with the global meltdown.
9. Once again welcome to Kunduchi Beach Hotel and Resorts. To make your stay is comfortable and to ensure smooth participation, our Secretaries, Vicky Hingira and Mwanahamisi Mweri are standing by and ready to handle your inquiries. Please contact them without hesitation on following hotlines:
